

Resilience Partners closes a new investment by financing the expansion of PFP Termopolímeros

The direct lending firm Resilience Partners Fund I S.C.A., SICAR, has closed a new investment by financing the expansion of PFP Termopolímeros S.L.

With this transaction, Resilience Partners continues its strategy of helping Spanish SMEs to finance its growth plans. Adela Mayor, CEO and founder of PFP Termopolímeros, said: “We have found an alternative which will allow us to increase our production capacity by advancing growth prospects in the coming years”. On the other hand, Agustín Pla, partner of Resilience Partners that has led the transaction added: “with this new financing Resilience Partners continues to consolidate its position as a clear alternative by helping leading companies in their industries and maintaining a wide diversification of companies in the portfolio”.

Resilience Partners continues with its solid pipeline, having also financed in February 2020 a Buy & Build process in the business services industry, and expects to close 2-3 additional investments by the end of the year. Additionally, it continues giving liquidity to investors, having made several distributions since inception, thus confirming the attractiveness of the cash component of this product.

About Resilience Partners

Resilience Partners specializes in helping Spanish companies with solid track record to execute its long-term expansion plans, offering flexible financing solutions. Resilience Partners focuses on companies with EBITDA's between EUR 3-15 M, leaders in their segment, with consolidated management teams and long-term financing needs to execute strategic plans.

Resilience Partners Fund I S.C.A., SICAR is under investment period and parallelly is working on Resilience Partners Fund II S.C.A., SICAR maintaining the same investment strategy which forecasts to raise EUR 150-200 M among institutional investors from Europe, the United States as well as Family offices, to continue financing growth within the same target companies.

About PFP Termopolímeros
